Sydney/Creglingen, 07.10.2013 – WINAICO Australia Pty Ltd, a subsidiary of Taiwan’s largest photovoltaic module manufacturer Win Win Precision Technology Co., Ltd, will be at Australia’s All Energy Exhibition in Melbourne, signing an MOU with Ogden Electrical Pty Ltd (trading as Ogden Power) for the co-development of a range of high quality, reliable energy solutions designed to reduce the reliance on fossil fuels in remote communities of Australia.

Rede Ogden, Director of Ogden Power is delighted to be working closely with WINAICO to develop and distribute a range of products to meet the needs of an ever-growing commercial scale off grid market. “We aim to meet the future electricity demands of remote communities across the Northern Territory and remote Australia with a focus on sustainable renewable energy sources that will greatly reduce their dependence on fossil fuels and in the long term reduce the overall cost of electricity. By combining Ogden Power’s experience working in both conventional and renewable hybrid systems in these remote regions with WINAICO’s experience in solar panel and semiconductor development, we believe that we will be able to make an impact on our clients’ energy needs that will be long lasting, efficient and satisfying.”

Blair Pester, Sales Director of WINAICO’s Asia Pacific office in Sydney welcomes the opportunity to work with the team at Ogden Power to develop solutions that will take advantage of WINAICO’s excellent performance attributes in hot climates. “We believe that the people in the remote communities of Australia deserve a high

quality, reliable energy alternative. WINAICO & Ogden Power's solution is the quality choice".

WINAICO will be at this week's All Energy show in Melbourne to unveil a state of the art energy storage system. The core of the WINAICO EnergyStorage is a high-tech cutting-edge battery storage structure, based on the Kolibri solid state technology. The WINAICO team can be found at booth 2309 at the All Energy show and is looking forward to welcoming you.

WINAICO – Manufacturer and system supplier

As a 100% subsidiary of the semiconductor company Win Win Precision Technology Co., Ltd., based in Taiwan, WINAICO manufactures and distributes crystalline high performance modules worldwide. Furthermore, as a systems house for photovoltaics, WINAICO delivers complete PV system packages.

Company customers are solar specialists, solar technologists, installation specialists and project developers. Installation specialists profit here from the superior product quality of products manufactured in Taiwan in accordance with the highest quality standards, as well as from the comprehensive consultation, planning and maintenance services from WINAICO. Generous stock levels ensure the rapid availability of WINAICO products.
