Press release 12/2012

PV manufacturer WINAICO implements 16 MW solar project on Sardinia

Nearly 70.000 WINAICO modules installed on greenhouses

Creglingen, 28.08.2012 – In Giave (Sassari), Sardinia, WINAICO has successfully finalized the largest project with WINAICO modules. WINAICO, as general contractor, forecasts a future yield of 26.252.226,00 kWh per year for the 16 MWp photovoltaic plant. The quality of the WINAICO modules was recently confirmed by German TÜV with the passed PID test and a maximal loss in performance of 1 %.

The works already started on February 15th 2012. In only 58 days the systems was installed and on June 26th 2012 connected to the public grid. The greenhouses extend over an area of approximately 30 hectares. 67.704 WINAICO modules WSP-235P6 are installed with an orientation of 22 degrees towards South. The inverters in operation are from Solarmax and LTI.

“We are very happy that the international operator GSE (Gestore Servizi Energetici) was extremely satisfied with the implementation of the project. Due to the good work and precision the inspection was made by GSE without any difficulty”, said Marco Ippoliti, Managing Director of WINAICO Italia S.r.l.

For the first time WINAICO, as module manufacturer, was general contractor and besides the module supply responsible for the planning, technical design and installation.

The greenhouses are at least for the next 20 years used for the cultivation of crop plants. Thus they are greenhouse and solar park in one, they can be doubled used.

WINAICO – Manufacturer and system supplier

As a 100% subsidiary of the semiconductor company Win Win Precision Technology Co., Ltd., based in Taiwan, WINAICO manufactures and distributes crystalline high performance modules worldwide. Furthermore, as a systems house for photovoltaics, WINAICO delivers complete PV system packages.

Company customers are solar specialists, solar technologists, installation specialists and project developers. Installation specialists profit here from the superior product quality of products manufactured in Taiwan in accordance with the highest quality standards, as well as from the comprehensive consultation, planning and maintenance services from WINAICO. Generous stock levels ensure the rapid availability of WINAICO products.
