Press Release

WINAICO teams up with MCS & Renewable Training Specialists

Introduction of an exclusive discount programme

Creglingen, 05.04.2012 – WINAICO, one of the leading PV module manufacturer and Easy MCS Ltd., the UK's Multi Award Winning and Leading MCS Certification Support and Renewable Training provider have announced a partnership.

As a Taiwanese module manufacturer with German and other subsidiary companies around the world, WINAICO is positioned amongst the top brand manufacturers with a high quality product from an automated production line. The parent company, Win Win Precision Technology Co., Ltd. has its origins in the semiconductor sector, which is subject to the same quality management demands as those applied in the solar industry. With leading edge system technology and process expertise originating from the semiconductor industry, WINAICO is setting qualitative benchmarks on the PV market.

The partnership between Easy MCS Ltd. and WINAICO will see two top organisations in the renewable sector offering an exclusive discount programme which will assist installers with the costs of diversifying into the renewable marketplace.

“Our Partnership with WINAICO will allow us to offer customers of Easy MCS Ltd., access to some of the best solar PV modules in the world at an exclusive discount. The discount our customers will receive will cover the cost of their training and entry into the renewable sector, reducing financial barriers and making the opportunities in this exciting marketplace, open to everyone” commented Easy MCS Ltd. Sales Manager Thomas Farquhar.

For WINAICO, Gary Fuller, UK Sales Director said “We are delighted to be partnering with Easy MCS Ltd. who are unrivalled in the levels of MCS Certification support and high quality renewable training they offer. We will be adding to this by offering our unprecedented levels of technical support on solar PV to ensure each installer has everything he requires to break into this sector”.

„ Some of the best solar PV modules in the world “ – for example: 12 MW in Pocking, Germany

About Easy MCS Ltd.

Easy MCS Ltd. are the award winning market leaders in MCS Accreditation. The Market Leading Easy MCS Ltd. team are all experienced quality management assessors and training consultants specialists in providing accreditation services and expert advice to renewable installers on Air & Ground Source Heat pumps, Solar PV, Solar Thermal, Wind, Biomass, Micro CHP and Small scale Hydro.

About WINAICO – Manufacturer and System Provider

As 100% subsidiary of the semiconductor company Win Win Precision Technology Co., Ltd., located in Taiwan, WINAICO manufactures and distributes crystalline high-

performance modules. In addition, as systems supplier for photovoltaics, WINAICO delivers complete PV system packages.

Customers of the company include solar specialists, solar technicians, installers and project planners. Installers benefit from the better-than-average quality of the products that are manufactured in Taiwan according to the highest quality standards, as well as from the comprehensive consulting, planning and service provision by WINAICO. Large warehouses in Germany ensure the fast availability of WINAICO products throughout Europe.
