Press release 13/2012

PV module manufacturer WINAICO sponsors modules and accessories for Solar Decathlon Europe 2012

Italian Team MED IN ITALY starts with highly efficient WINAICO PV technology

Creglingen, 05.09.2012 – PV module manufacturer WINAICO supports Team MED IN ITALY at this year's Solar Decathlon Europe. The team consists of team "Roma Tre" (University Architecture, Economy and Engineering Schools) and team "La Sapienza" (University Industrial Design Apartment). As sponsor, WINAICO provides Team MED IN ITALY with its proven modules of the WSP series and all necessary accessories.

In the field of renewable energies and architecture, Solar Decathlon is one of the most important international competitions with pathbreaking character: Solar Decathlon is annually held by the U.S. Department of Energy. The competition challenges 20 collegiate teams to design, build and operate the most attractive, effective and energy-efficient solar-powered house. The building planned by MED IN ITALY produces three times more power than it consumes.

"The Solar Decathlon creates awareness for energy-efficient building and shows in an impressive way how the use of renewable energies comes along with the increase of convenience as well as the quality of design and life. This competition confirms the elementary part of photovoltaics as source for primary energy and as inherent part of the independency from electricity tariffs", said Marco Ippoliti, Managing Director of WINAICO Italia S.r.l.

The Solar Decathlon Europe 2012 takes place from September 14th to 30th 2012 in Madrid.

WINAICO – Manufacturer and system supplier

As a 100% subsidiary of the semiconductor company Win Win Precision Technology Co., Ltd., based in Taiwan, WINAICO manufactures and distributes crystalline high performance modules worldwide. Furthermore, as a systems house for photovoltaics, WINAICO delivers complete PV system packages.

Company customers are solar specialists, solar technologists, installation specialists and project developers. Installation specialists profit here from the superior product quality of products manufactured in Taiwan in accordance with the highest quality standards, as well as from the comprehensive consultation, planning and maintenance services from WINAICO. Generous stock levels ensure the rapid availability of WINAICO products.
