Press release

WINAICO presents new module for small photovoltaic systems

The polycrystalline 6x8 cell module of WSP series convinces by its esthetics

Creglingen, 16.03.2011 – WINAICO Deutschland GmbH, subsidiary company of the Taiwanese module manufacturer Win Win Precision Technology Co., Ltd., offers a new product to their specialised partners: the polycrystalline 6x8 cell module of WSP series. It is available in wattages from 170W to 195W. With this product WINAICO reacts to the change of the market from large scale systems to smaller systems.

In addition to their precious black look, the new high performance modules convince by an excellent module efficiency and an optimal use of the roof area. Due to the small dimensions of the module it is ideally suited for smaller photovoltaic systems. Furthermore the modules have a very good low-light behavior.

The product is perfect for foreign markets as Italy or United Kingdom, because small systems are in great demand there. Two years of insurance protection is also included with the purchase of the WINAICO modules. It is possible to extend this to a total of ten years under economical conditions.

In Germany, the 6x8 module will be presented at Intersolar in Munich for the first time (hall A4, booth 270).

WINAICO Deutschland GmbH - manufacturer and system supplier

As a system house for renewable energies, focusing on photovoltaic technology, WINAICO Deutschland GmbH has specialised in solar energy: a subsidiary of manufacturer Win Win Precision Technology Co., Ltd., with headquarters in Taiwan, WINAICO is building on the comprehensive expertise of its parent company in the exacting semiconductor industry. The main products of the company, based in the German town of Creglingen (Main-Tauber District), are crystalline high-performance photovoltaic modules and

innovative LED lighting technology as well as premium-quality thin-film modules, sold exclusively to European installation companies. Installers benefit both from the above-average product quality of the products, manufactured in Taiwan to the highest quality standards, and from the comprehensive advice, planning and service provision of WINAICO Deutschland GmbH. Ample stocks in Germany ensure the rapid availability of WINAICO products throughout Europe.
