Press release 3/2017

## **More than 10.000 WINAICO solar modules installed on Holland's largest roof-top system**

*9,3 MWp project will be completed at the end of May 2017*

Creglingen, 22.03.2017 – WINAICO, a subsidiary of Taiwan's biggest solar module manufacturer Win Win Precision Technology Co, Ltd., has – as already reported in July last year - received the order to provide Holland's largest roof-top system with solar modules.

The photovoltaic system, consisting of more than 35.000 WINAICO solar modules WST-260P6, is spread over 26 roofs.

With a total output of 9.3 MWp on a roof area of more than 155.000 square metres, the solar plant is Holland's largest roof-top system.

The project is carried out by the Dutch company Royal Dekker together with other system suppliers and installation partners.

“We are very satisfied with the previous construction progress! The installation team already mounted 10.845 WINAICO solar modules and we are confident that the installation works will be completed until the end of May this year”, said Marc Ortmanns, Head of European Sales & Marketing.

## **WINAICO – Manufacturer and system supplier**

As a global PV brand based in Taiwan, WINAICO manufactures and distributes crystalline high performance modules worldwide. Furthermore, as a systems house for photovoltaic, WINAICO delivers complete PV system packages.

Target customers include solar specialists, solar technologists, installation specialists and project developers. Installation specialists profit here from the superior product quality of products manufactured in Taiwan in accordance with the highest quality standards, as well as from the comprehensive consultation, planning and maintenance services from WINAICO. Generous stock levels ensure the rapid availability of WINAICO products.
