Press release 3/2021

WINAICO expands GEMINI module series by 370 Watt Full Black

New WST-MGL GEMINI series with modified module dimensions

Creglingen, 21.04.2021 – WINAICO Deutschland GmbH, a subsidiary of Taiwan's largest solar module manufacturer Win Win Precision Technology Co., Ltd., announces a new 370 Watt Full Black module and changes the module dimensions at the same time.

The new WST-MGL GEMINI series consists of 120 monocrystalline half-cells and will measure 1,767 mm high and 1,050 mm wide. For the current modules with 375 watts, the changeover to the new module dimensions will take place from May 2021.

The new Full Black module with 370 watts has an efficiency of 19.9 % and will be available from June 2021.

The photovoltaic modules of the WINAICO WST-MGL series are suitable for installation on private houses as well as on commercial roof systems.

WINAICO provides a 25-year product warranty and an above-average linear performance guarantee with a guaranteed output of at least 85.28 % at the end of the 25th year.

"With the MGL series, we are creating strong module performance on a compact scale, thus ensuring application in many areas of use from private to commercial," says Marc Ortmanns, Head of Sales & Marketing at WINAICO Deutschland GmbH.

WINAICO – Company profile

Established in 2008, WINAICO is one of the world's oldest solar module manufacturers. WINAICO's crystalline high performance modules are produced at the companies HQ in Taiwan and distributed via its worldwide subsidiaries.

Thus WINAICO customer benefit from the superior product quality of products manufactured in Taiwan and all the amenities of local warehousing, logistics, order processing and customer care.

Target customers include all relevant B2B customers such as solar specialists, installation companies, electrical distributors and project developers.
